

Bulletin

#06-22K

Date: October 27, 2006
To: All Kidde Fire Systems Distributors
From: Diana Jones, Product Manager, Intelligent Systems
Subject: ARIES™ Remote Releasing Capability Available Today!

Kidde Fire Systems announces the availability of the Remote Releasing Module (RRM) for use with the ARIES™ Intelligent Control Unit. The RRM is now UL Listed, FM Approved and available for immediate sale and delivery.

To ensure you are equipped with the most relevant information when ordering the RRM, this bulletin provides an overview of the following:

- RRM Product Description
- Control Unit Capability and Software
- Ordering Details
- Webinar Schedule

RRM PRODUCT DESCRIPTION

The Remote Releasing Module (RRM) is a SmartOne® field device that provides the ability to remotely activate extinguishing-system control devices, such as actuators and solenoid valves. RRM's are a convenient, inexpensive approach to increasing the releasing capabilities of the ARIES Control Unit. The SmartOne signaling line circuit for the ARIES™ supports a maximum of 64 RRMs. Up to 16 RRMs can be configured for simultaneous group activation with a maximum of four groups.

The RRM supports both gaseous and pre-action/deluge sprinkler systems. Each RRM is programmable to activate up to two (2) solenoid valves, supervised in series and activated in parallel OR one (1) Kidde Metron actuator.

For RRM specifications please refer to the new RRM datasheet attached to this bulletin.

CONTROL UNIT COMPATIBILITY AND SOFTWARE

All newly ordered ARIES™ Control Units are compatible with the RRM.

To download the latest version of the ARIES Configuration Tool (ACT) with the new RRM features, please visit the secured distributor area of the Kidde Fire Systems website at www.kiddefiresystems.com.

For previously installed control units, please contact our Technical Support at 866-287-2531 for assistance on how to upgrade your existing installations.

ORDERING DETAILS

For ease of installation, two versions of the RRM are available with different mounting options:

Part Number	Description
70-600000-001	RRM standard mounting – for mounting in standard electric boxes: • 4 inch square, 2-1/8 inch deep • North American 4-11/16 inch with double gang plaster ring (Rayco Model 841 or equivalent), 1/2 inch raised
70-600000-002	RRM cabinet mounting – for mounting in suitable UL-864 Listed enclosure

Please visit the secured distributor area of the Kidde Fire Systems website at www.kiddefiresystems.com to download the updated version of the Intelligent Control Systems price list.

WEBINAR SCHEDULE

To learn more about the RRM and the latest ARIES™ software enhancements, join us for a free Webinar on:

November 7, at 2:00 p.m.

Email Jayme Edwards at jayme.edwards@kidde-fenwal.com by November 3, 2006 to sign up for this event.

Thank you for your continued support and business you have offered to Kidde Fire Systems.
