BULLETIN

#2018-48K

Date: November 12, 2018
To: Kidde Fire Systems Vehicle Suppression System Distributors
From: Patrick Sullivan, Product Management
Subject: SA1 Bracket (P/N 83-130034-400) Now Compatible with EMR

Based on your feedback, we are happy to announce that the SA1 Mounting Bracket has been updated to allow users to affix either the Electric Manual Release (EMR), P/N 83-132455-000 or the bracket for the Remote System Actuator (RSA), P/N 83-132530-000.

With this added flexibility, you can provide your customers with the SA1 installation that best meets their needs. The vehicle owner will now have the option to activate the system either electrically or pneumatically. Electric operation will provide a slimmer final installation than pneumatic, which will be less obtrusive to the operator.

The updated SA1 Bracket with this enhancement is in stock and ready for immediate shipment.

You can download the Vehicle Price List (PL KVS) and the latest datasheets from the distributor extranet at www.kiddefiresystems.com.

As always, Kidde appreciates your business.
