

#2023-48K

Date: November 7th, 2023
To: All Distributors
From: Training
Subject: 2024 Kidde Training Announcements

2024 Training – Open for Registration Now

Registration for instructor-Led training in the first half of 2024 is available now through the distributor extranet at www.kiddefiresystems.com. Most people agree that training is the key to ensuring properly designed, installed, and serviced systems. Last July, we sent Bulletin 2023-30K to remind everyone of the training requirements in the Kidde distributor agreement. Since then, we have been pleased to see many people attending training events. To continue that trend, we are pleased to offer the following training opportunities in 2024:

<u>North & South America (English language) Training Classes</u> Classes begin at 10:00am Eastern Time – Held on Zoom – Open to all distributors for registration		
<u>ModuLaser ASD</u> January 11-12 FREE CLASS June 10-11	<u>Natura Inert Gas</u> January 29-30 May 13-14	<u>WHDR Pre-Engineered Wet Chemical</u> January 22 February 19 March 25 April 29 May 29 June 24
<u>Detection Alarm & Control</u> April 22-24	<u>High Pressure CO₂</u> April 8-10 Design April 10-11 Technician	
<u>Clean Agents Fluoro-K™ (FK-5-1-12) & HFC-227ea (FM-200)</u> February 5-7 Design February 7-8 Technician June 3-5 Design June 5-6 Technician	<u>Low Pressure CO₂</u> March 11-12	<u>IND Pre-Engineered Dry Chemical</u> January 23 February 20 March 26 April 30 May 30 June 25
	<u>Marine Technician</u> January 17-18	

- **Note: Some classes have an overlapping day of classes where designers and technicians meet together. A participant may register for both classes.**

<u>Middle East Region Classes</u>		
Classes begin at 10:00am Dubai Time – Held on Zoom – Open to all distributors for registration		
<u>ModuLaser ASD</u> January 9-10 FREE CLASS	<u>Clean Agents Fluoro-K™ (FK-5-1-12) & HFC-227ea (FM-200)</u> February 11-13	<u>Natura Inert Gas Systems</u> February 14-15

<u>LATAM Region (Spanish-Language)</u>	<u>Asia-Pacific Region</u>
We are working on a translation solution to allow more frequent and accessible training for our Spanish-speaking distributors. Watch for more information on dual-language, live-translation training in the coming weeks.	Interested in ModuLaser? Join the Free training January 9&10 at a convenient time by registering through the Middle East & Africa Region banner on the distributor extranet. Watch for a regional announcement for our distributors in the APAC region for training opportunities in your area.

2024 Training Pricing Information

After several years of level-pricing for training, as of January 1, 2024 prices for training will increase. The following table shows new prices for 3-year certificates that will go into effect beginning with the new year:

	Engineered Suppression, Detection & Controls	Pre-Engineered WHDR & IND
Instructor-Led Training	\$350	\$350
Recertification	\$200	\$150

Training registration orders entered before the end of 2023 will be invoiced at current rates even if the class is set to take place after the new year begins. Registering now will result in savings on your 2024 trainings.

More FREE ModuLaser Aspirating Smoke Detection training classes added!

Due to popular demand, in addition to a free ModuLaser training which will be held during daylight hours for our distributors in the Middle East and Asia-Pacific regions, we will be offering one more FREE ModuLaser training session for distributors in the Americas in January. Registration is available immediately through the distributor extranet.

We plan to offer a FREE Spanish-language ModuLaser technical certification training as soon as possible.

If you have any questions about these or any training-related topics, please contact Training.KFS@carrier.com or call (508) 308-4733. As always, we value your feedback and we look forward to seeing you at a training class soon.
