Coupled manifolds together using the 2" BSP Manifold Coupling (P/N: 38-400020-100).

Use the manifold end cap (P/N 38-400020-101) to close off the end of the manifold that does not connect to the system piping.

Use the 3/4" manifold end cap (38-400020-102) to cap off any unused stubs in a manifold. For example, if using an 8 stub, 2 row manifold and only needing to connect 7 cylinders, one stub would be capped off.
