TWO TYPES OF CYLINDER VALVE

IMPORTANT NOTICE

There are two different types of cylinder valves.

Cylinder valves delivered under part numbers "98xxx" are Type II.

Deliveries of Type II cylinder valves commenced in July 2005.

Type II cylinder valves can be identified by the marking with Interspiro logotype, see #1 in the picture below. Furthermore the marking #2 according to picture below always begins with "98xxx".

Type I cylinder valves have no logotype marking similar to #1 in the picture below.

Type I cylinder valves can have different markings according to #2 in the picture below, but never beginning with "98xxx".

For Type I cylinder valve spare parts, see page 15.

For Type II cylinder valve spare parts, see page 16.

CYLINDER VALVE - TYPE I

Spare parts intended for organizations certified to perform periodic cylinder inspections are available in the separate spare parts list 98675.
